COBLENZ, March 17.—During the last twenty-four hours the American military authorities have arrested five
Spartacide agitators who were attempting to stir up trouble. Four were taken in Coblenz cafés while making inflammatory speeches of the soapbox variety. Another was arrested to-day among the number of workmen in the street, within a stone's throw of the American army headquarters.

The workmen were of the number of local unemployed allowed by the army authorities to do street work with pay half in money and half in food. The agitator stepped out of the group at work near the headquarters building and shouted:

"The American army is in control here, but if it does not treat us right."

All the men arrested are believed to be emissaries sent within the American other centres of agitation. The importance of preventing the spread of their propaganda is not minimized by the military authorities.

The Senator quoted from an address by President Wilson in 1914, in which the executive said, "We should not form alliances with any nation in the world," and also from a statement by former British Ambassador Bryce commending the Senate for "discouraging the executive from schemes... for foreign enterprises and to save the country (the United States) from being entangled with alliances, protectorates, responsibilities of all sorts beyond its own frontiers."

### Paris Reports Wilson Worn Out by Overwork

PARIS, March 17.—The report is circulated, probably correctly, that President Wilson is worn out with overwork. He works Sundays as well as other days, never fully obeying Dr. Grayson's orders concerning outdoor exercise. This is the case with every statesman at the peace conference, but the extra strain upon Mr. Wilson is owing to the fact that, despite the enormous staff of technicians and experts maintained by the American delegation at the Palace de Crillon, the President alone decides all matters. Neither Mr. White nor Secretary Lansing enjoys plenary powers. Colonel House is not in

Why First Mortgages Guaranteed by this Company Am the Best Investment for Prudent People.

It is a great thing to feel that your principal is safe, and that, even if real estate declines in value, you will not have to foreclose and become the owner.

The question, of course, is whether the guarantor can make good. If there ever was any doubt, this war experience has removed it. The Company has made good, as some 1800 mortgagees, for whom the Company during that period has foreclosed and collected their mortgages and whom it has protected, can testify.

They have been about the only mortgagees who have been unconcerned during this period and the Company has carried the burden easily.

With Story of Brutalities; United States Consul Is

PEKING, March 18 (By The Associated Press).—An American missionary who has just returned from Corea describes the independence movement there as the most wonderful passive resistance movement in history.

The missionaries were taken by surprise when the movement began, but, after realizing that their churches had been closed by order of the police and that most of their pastors were in jail, concluded that the time had come to break silence regarding the brutalities witnessed in the last decade.

They had seen children beaten, old men ejected from their houses and women struck with swords, and they could not, for humanity's sake, keep quiet, whatever the cost to their missionary work and to themselves.

They appointed a committee to proceed to Seul and confer with the American consul and present signed documents to the effect that two American women missionaries had been beaten by Japanese soldiers with guns and that other American missionaries had been to the pattern to the post-office for the earliest possible distribution.
